Labor in India is mostly unskilled, though Indian laborers have remarkable powers of adaptation, and they can easily be trained to do the most difficult operations requiring a high degree of intelligence.

BAND CONCERT.
At Brightwood Reservoir, 16th and Kennedy streets northwest, at 7:30 p.m. today, by the United States Navy Band, Charles Wise, assistant director.
March, "Fidelity"; Blankenberg Overture, "Semiramide"; Rossini Grand war march and battle hymn from "Rienzi"; Wagner Grand selection from the opera "Macbeth"; Verdi "Pany American"; Herbert Gems from the musical comedy "Her Soldier Boy"; Romberg Waltz de concert, "Angels Dream"; Hartman One-step, "Sunny Side Sal"; Kendis "The Star Spangled Banner."

The Railway Crossing.
He reached the railway crossing the same time as the train; I saw the engine tossing his auto o'er the plain; an epitaph engraving was placed above the slain. With buckets and valises the undertakers came, and gathered up the pieces of his poor mortal frame, the while his weeping nieces declared it was a shame. He speeded up his lizzie, and tried to beat the train; his speed was surely dizzy, and certainly insane; why he so all-fired busy when all such haste is vain? He had all week to travel to Junktown-in-the-Hole; but he must scorch the gravel, the poor, misguided soul; and now no druggist's salve'll restore this Peter Pole. "Oh, stop, and look, and listen," the railway signboard said; he saw the wise words glisten in fresh paint just ahead, and he worked every piston and to the crossing sped. They scraped him from the cedars, they raked him from the plain; the public prints had leaders that showed his course was vain, a warning to all speeders who try to beat the train. Alas, for poor old Peter! Much grief my spirit feels; and as I tawnward teeter, no more he rips and reels to show his lizzie's fleetness than anything on wheels. **WALT MASON.**

NAUTY'S PLANS DELAYED
Postponement of the start of the proposed transatlantic flight to October 15 was announced today by Edwin Fairfax Nauty, who will command the expedition. Recent changes in weather conditions, it was said, led Mr. Nauty to defer the trip.
Mr. Nauty said he had been in constant radio communication with Alaskan points for the purpose of keeping close observation on weather conditions, and was certain that the time now selected for the flight would give the party not only ideal flying weather, but a following wind of at least thirty-five miles an hour, which would shorten the time consumed in making the flight to the pole.
Arrangements have been made, he said, for the transportation of a number of letters from public men in the United States to those occupying similar positions in Europe. This mail, if the flight is successful, will reach its destination bearing the postmark "North Pole."

CORNER STONE IS LAID.
With impressive ceremonies the corner stone of the Ohav Shalom Synagogue was laid yesterday afternoon at 2 o'clock at Whitestown, Congress Heights. Rabbi Silverstone delivered a brief address, in which he urged the members of the congregation to work together in close harmony for mutual benefit. Harry I. Carroll and Mr. Plotnick also made addresses.
